

Why Lumbre?

LUMBRE products are built with European DNA. Harnessing German Technology to create High-Density Fiberboard cores with precision, while adapting Italian Design to create stylish yet comfortable flooring systems to suit your style.

✓ High Moisture Resistance and Water Resistance

LUMBRE is the perfect choice for humid locations due to the High-Moisture Resistance technology (HMR) on High-Density Fiberboard (HDF), providing First Class Parquet that can last for decades.*

✓ Strong, Sturdy and Easy to Maintain

LUMBRE's High-Density core is produced using precision German Technology with hard wood as the raw material, resulting in an engineered substrate that is impact resistant, moisture, and insect resistant.

Anti Scratch

Bold and Beautiful. LUMBRE use a high-tech finishing method to withstand scratches from your pet's nails, workshop tools, and even indoor skateboarding.

Dent Free

LUMBRE Flooring's decorative surfaces are infused with Melamine Resin to give a high degree of hardness.

Insect Resistant

LUMBRE uses the highest quality High Density Fibre board that exhibits resistance and protection against pest induced damage.

Safe for Kids

LUMBRE is rock solid and friendly for kids. Resistant to everyday wear and tear from spilled bottles, leaked diapers, or kids toys that can ruin your floor. It is especially compatible with young children as it is more hygienic compared to other flooring types.

✓ Eco Friendly

Our board is **100% made out of bio-degradable** material that is Eco friendly and non-toxic. LUMBRE parquet is safe for the environment and your loved ones.

✓ Customized Color and Wood Pattern

Customized to your personal preferences, you can mix-match colors and patterns suit your style at LUMBRE**

* Thickness Swelling property of under 5% swelling submerged in water of 20 C for 24 hours.

** Special orders are available with a set minimum quantity.

Natural looking materials are always sought after when designing your space. At LUMBRE, we believe that the best way to re-connect with nature is through direct contact with the natural beauty of wood-processed floors. There is no better way to achieve this than to fill your home with the luxurious, awe-inspiring presence of a unique parquet floor. Let us bring the outside in.

Consult your flooring ideas to our team of experts.

RESIDENTIAL

Connect with nature by bringing it to your home through luxurious wooden floors. You get not only the look, but the natural touch and warmth of LUMBRE's parquet.

COMMERCIAL & PUBLIC SPACES

Create a stunning office space or a cozy restaurant with classy and natural looking parquet. LUMBRE is available in various color combination variants to suit your decoration needs.

BATHROOM

Build your own unique, elegant, and luxurious wood-themed bathroom style. Combine wood colors with a white-wash basin to create a vibrant look. Or match a wooden parquet with a rustic toilet wall. The possibilities are open for you to explore *

KITCHEN

Kitchens are often the focal part of residential dwellings. This is where family and friends will gather. Its design can impact the overall interior of a house, transforming it into a home. Wooden kitchen design and flooring are a great way to create a cohesive look for both traditional and contemporary home design.

*We recommend only using LUMBRE Supreme for bathroom use.
